

DESIGN FUSED WITH TECHNOLOGY

(Model #3JC60) 3 Jaw Gripper – 1.5" - 60"

The IrcO 3JC60 Gripper is designed specifically for use in the Welding industry, to be used in conjunction with Weld Positioners, Head/Tailstocks, etc. It is self centering with reversible quick change chuck jaws. The enclosed front face protects the mechanism from weld spatter and flux contamination.

Gripping Range

Outside Diameter	1.5" to 56"
Inside Diameter	7.0" to 61"

Chuck Jaws

(3) Self centering

Chuck Adjustment

Single point thread

Jaw Attachment

(2) Ball-lock pins – 13 positions

Chuck Adjusting Bar

$\frac{3}{4}$ " Diameter x 24"

Max allowable force

1380 in lb

Mounting Holes

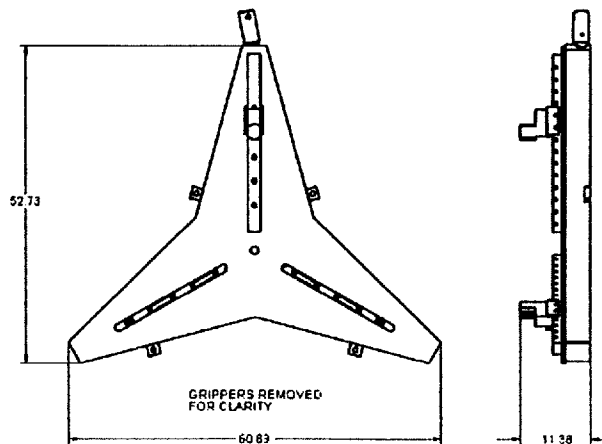

(4) $\frac{13}{16}$ dia for $\frac{3}{4}$ Bolts, spaced at 90°

Weight

510 lb.

Max Gripping Force

7500 lb, Approx.
